Pexip Professional Services

Infinity Installation

Full control, unmatched capabilities

When you want full control over your video conferencing infrastructure and media, you choose Pexip Infinity. It is a software-based self-hosted video conferencing platform with all the benefits of the cloud, but entirely under your control. You can deploy Infinity in a multitude of ways, including in a cloud subscription on for instance Microsoft Azure, AWS, or GCP, or even on-premises if that is a requirement. Infinity can help you migrate to the cloud at your own pace. And of course, Infinity features all of the features that you have come to know from Pexip.

With Pexip Professional Services, Infinity is installed reliably, quickly and cost effectively. Pexip will ensure the successful installation and integration with your video conferencing systems and call control through the use of its highly trained and experienced technical experts.

A Pexip Professional Services Engineer will oversee the entire process for you.

Benefits

Quality – Every installation is performed to exacting quality standards

Speed – Optimized installation and integration process

Value – A fixed-price, fixed-deliverables service

This service includes:

Remote installation of one Management Node and up to three Conferencing Nodes within your environment

Configuration and integration of all ancillary services, including DNS, NTP, syslog, etc.

Configuration guidance for integration with all ancillary services, such as DNS, NTP, Active Directory, syslog, and others as applicable

Configuration of the Infinity platform, to include up to:

- 10 VMRs
- 10 Virtual Auditoriums
- 1 Virtual Receptionist

Integration of the Infinity platform with your existing call control system

Quality Assurance – system testing against an agreed test plan
